PROFILE SUMMARY

A driven Computer Science graduate from the Federal University Dutsin-Ma (FUDMA) with hands-on experience in AI engineering, full-stack web development, and data-driven systems. I designed and built **TechTrust** — an AI-powered developer credential verification and recruitment matching platform integrating a MindSpore MLP neural network with GitHub API data, developed as **Team Leader** during the **Huawei ICT Academy Innovation Competition**, where our team reached the **National Finals on January 29, 2026**. As a two-time student president (Faculty of Computing + NACOS FUDMA Chapter), I led over **2,000 students**, organized the first-ever state-wide Katsina Hackathon, launched tech clubs, and drove a culture of practical excellence. Prior to my presidency I served as **Sports Director** for the Faculty of Computing. I am actively seeking internship opportunities and AI engineering roles where I can contribute, build, and grow rapidly.

SKILLS

AI / Machine Learning

MindSpore · MLP Neural Nets · AI Engineering · Model Training

Back-End Development

Node.js · Express.js · MongoDB · REST APIs · GitHub API

Front-End Development

HTML5 · CSS3 · JavaScript · React · Bootstrap · Tailwind CSS · TypeScript

Tools & Workflow

Git · GitHub · VS Code · Agile

Data & Analysis

Data Mining · Outlier Analysis · Simulation · Cloud Computing

Security & Systems

Cybersecurity · Systems Analysis & Design

Forex Trading

Technical Analysis · Risk Management · Forex Markets

Soft Skills

Leadership · Strategic Planning · Technical Writing · Public Speaking

PROJECTS

TechTrust — AI Developer Credential Verification

Flagship · Final Year Project, 2025

An AI-powered platform verifying developer credentials and matching them with recruiters. Integrates a MindSpore MLP neural network with GitHub API to assess developer skill authenticity. Built as Team Leader during the Huawei ICT Academy Innovation Competition (National Finals, Jan 29, 2026) and submitted as final year project at FUDMA under Dr. Umar Ilaysu. Looking forward to expanding TechTrust further.

Stack: Node.js · MongoDB · MindSpore MLP · GitHub API · Express.js · REST API

Muaishaq Forex Academy

2024

Web-based forex education platform with structured lessons and strategy documentation.

Stack: HTML · CSS · JavaScript

FUDMA Student Portal Clone

2024

UX redesign and improvement of the FUDMA university portal with enhanced responsiveness.

Stack: HTML · CSS · JavaScript

Football Quiz App

SIWES 2025

Interactive quiz app with dynamic scoring, timed rounds, and a leaderboard.

Stack: JavaScript · HTML · CSS

To-Do List App

SIWES 2025

Task management app with local storage persistence and priority tagging.

Stack: JavaScript · CSS3 · LocalStorage

Background Color Generator

SIWES 2025

DOM-based interactive tool for dynamically generating background colors.

Stack: HTML · CSS · JavaScript

EDUCATION & EXPERIENCE

// Education

B.Sc. Computer Science

Federal University Dutsin-Ma (FUDMA)

Coursework: Software Dev · Data Structures · Algorithms · AI/ML · Cloud Computing · Cybersecurity · Systems Analysis · Data Mining · Simulation

CGPA: Awaiting final results — In Sha Allah

HTML Certification

Online Assessment Platform

Secondary School Certificate (WAEC/NECO)

Command Secondary School

Focus: Science & Mathematics · Active in CS & Tech Clubs

// Experience

Freelance Web Developer

Self-Employed 2022 – 2026

Building responsive, custom websites using HTML, CSS, JS, and Node.js.

SIWES Industrial Attachment

Student Industrial Work Experience Scheme

Built 3 mini-projects (To-Do App, Football Quiz, Color Generator). Key perspective shift in development approach.

Web Dev Project Lead

FUDMA Group Project

Coordinated team deliverables, architecture decisions, and final submission.

LEADERSHIP & COMMUNITY

President, Faculty of Computing

FUDMA

2022 – 2026

- Represented 2,000+ students in faculty governance and advocacy
- Organized inter-departmental tech events, seminars, and student initiatives
- Previously served as Sports Director, Faculty of Computing, before ascending to President

President, NACOS FUDMA Chapter

Nigeria Association of Computer Science Students

2022 – 2026

- Organized NACOS FUDMA General Congress 2026 — 'Beyond Theory: Building a Legacy of Practical Excellence'
- Organized the first-ever state-wide Hackathon in Katsina State — 4-Stage competition, ₦4.5M+ approved budget
- Partnered with 4 Katsina tech hubs: Lumilab Innovation Hub, Kirkira Innovation Hub (GRA), Kebram Tech, Katsina State Directorate of ICT
- Invited 6 tertiary institutions: Umar Musa Yar'adua University · Federal College of Education Katsina · Hassan Usman Katsina Polytechnic · Al-Qalam University Katsina · Isah Kaita College of Education · Katsina State Institute of Technology & Management
- Formalized partnerships between NACOS FUDMA and all participating tech hubs after outreach visits
- Launched Tech Guild and Tech Lite clubs for student developers
- Unveiled the first-ever NACOS FUDMA official jersey — produced by Si14, with 40% production cost sponsored by Rilz Smith
- Constitutionally amended the Tech Guild framework and faculty wear directives

Team Leader — Huawei ICT Innovation Competition

Huawei ICT Academy, FUDMA Chapter

2025 – 2026

- Led FUDMA team in the Huawei ICT Academy Innovation Competition
- Progressed to the National Finals held on January 29, 2026
- TechTrust was developed as the team's flagship innovation submission

Brand Ambassador

Si14

2025

- Selected as Brand Ambassador for Si14 — the brand that produced the first-ever NACOS FUDMA official jersey
- Si14 handled full jersey production; Rilz Smith (solar company) sponsored 40% of production costs

Football Team Captain

FUDMA Departmental Team

2020 – 2026

- Captained the departmental football team from first year through graduation
- Led team strategy, morale, and competition representation for 5+ years
